

## List of publications FA0807 year 2011

1. Abou Jawdah Y., Choueiri E., Bianco P., Molino-Lova M., Hajj-Hassan S., Al Achi R. 2011. Almond witches' broom phytoplasma: situation in Lebanon. *Phytopathogenic Mollicutes* 1(2): 99-100.
2. Abou-Jawdah Y., Dakhil H., Molino Lova M., Sobh H., Maya Nehme M., Abou Fakhr-Hammad E., Alma A., Samsatly J., Jawhari M., Abdul-Nour H , Bianco P. 2011. Preliminary survey of potential vectors of 'Candidatus Phytoplasma phoenicium' in Lebanon and probability of occurrence of apricot chlorotic leaf roll (ACLR) Phytoplasma. *Bulletin of Insectology* 64, Supplement: S123-S124.
3. Acs Z., Contaldo N., Ember I., Paltrinieri S., Kolber M., Duduk B., Bertaccini A. 2011. 'Bois noir' in Hungary: tuf type b strain variability on 16S ribosomal gene. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 109-110.
4. Acs Z., Jović J., Ember I., Cvrković T., Nagy Z., Talaber C., Gergely L., Toševski I., Kolber M. 2011. First report of Maize redness disease in Hungary. *Bulletin of Insectology* 64, Supplement: S229-S230.
5. Adkar-Purushothama C.R., Quaglino F., Casati P., Bianco P.A. 2011. Molecular typing of Coorg black pepper yellows phytoplasma by multiple gene analysis. *Annals of Applied Biology* 159(1): 58-68.
6. Ahmad J.N., Eveillard S. 2011. Study of the expression of defense related protein genes in stolbur C and stolbur PO phytoplasma-infected tomato. *Bulletin of Insectology* 64 Supplement: S159-S160.
7. Alfaro-Fernández A., Abad-Campos P., Hernández-Llopis D., Serrano-Fernández A., Font-San-Ambrosio M.I. 2011. Detection of stolbur phytoplasma in willow in Spain. *Bulletin of Insectology* 64 Supplement: S111-S112.
8. Alfaro-Fernández A., Del Carmen Cebrián M., Villaescusa F.J., Font-San-Ambrosio M.I. 2011. Detection and identification of aster yellows and stolbur phytoplasmas in various crops in Spain. *Bulletin of Insectology* 64 Supplement: S63-S64.
9. Alhudaib K., Razq A. 2011. First report of witches' broom disease of tomato associated with phytoplasmas in Saudi Arabia. *Bulletin of Insectology* 64 Supplement: S237-S238.
10. Alma A., Tedeschi R. 2011. Emerging phytoplasma diseases: research of the insect vectors. *Phytopathogenic Mollicutes* 1(2): 55-58.
11. Angelini E., Bazzo I., Bellotto D., Bertazzon N., Borgo M., Dalla Cia L., Filippin L., Forte V., Patriarca E., Perini G., Rainato A., Stringher L. 2011. Occurrence of Bois noir in nurseries and young vineyards. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 51-52.
12. Arismendi N., González F., Zamorano A., Andrade N., Pino A. M., Fiore N. 2011. Molecular identification of 'Candidatus Phytoplasma fraxini' in murta and peony in Chile. *Bulletin of Insectology* 64 Supplement: S95-S96.
13. Arocha-Rosete Y., Kent P., Agrawal V., Hunt D., Hamilton A., Bertaccini A., Scott J., Crosby W., Michelutti R. 2011. Identification of *Graminella nigrifrons* as a potential vector for phytoplasmas affecting *Prunus* and *Pyrus* species in Canada. *Canadian Journal of Plant Pathology* 33(4): 465-474.
14. Arocha-Rosete Y., Kent P., Agrawal V., Hunt D., Hamilton A., Bertaccini A., Scott J., Crosby W., Michelutti R. 2011. Preliminary investigations on *Graminella nigrifrons* as a potential vector for phytoplasmas identified at the Canadian Clonal Genebank. *Bulletin of Insectology* 64 Supplement: S134-S135.
15. Avramov Z., Contaldo N., Bertaccini A., Sakaljeva D. 2011. First report of stolbur phytoplasmas in *Prunus avium* in Bulgaria. *Bulletin of Insectology* 64 Supplement: S71-S72.
16. Avramov Z., Ivanova I., Laginova M. 2011. Screening for phytoplasma presence in leafhoppers and planthoppers collected in Bulgarian vineyards. *Bulletin of Insectology* 64 Supplement: S115-S116.
17. Bagnoli B., Gargani E. 2011. Survey on *Scaphoideus titanus* egg distribution on grapevine. - Meeting of the IOBC-WPRS Working Group "Integrated Protection and Production in Viticulture", Staufen im Breisgau (Germany), 1<sup>st</sup> to 4<sup>th</sup> of November 2009, IOBC-WPRS Bulletin 67: 233-238.

18. Balakishiyeva G., Qurbanov M., Mammadov A., Bayramov S., Aliyev J., Foissac X. 2011. Detection of 'Candidatus Phytoplasma brasiliense' in a new geographic region and existence of two genetically distinct populations. *European Journal of Plant Pathology* 130: 457-462.
19. Balakishiyeva G., Qurbanov M., Mammadov A., Bayramov S., Foissac X. 2011. Detection of 'Candidatus Phytoplasma brasiliense' in a new geographic region and existence of two genetically distinct *dnaK* genotypes. *Bulletin of Insectology* 64 Supplement: S61-S62.
20. Batlle A., Laviña A., Sabaté J., Camprubí A., Estaún V., Calvet C. 2011. Tolerance increase to 'Candidatus phytoplasma prunorum' in mycorrhizal plums fruit trees. *Bulletin of Insectology* 64 Supplement: S191-S192.
21. Bekele B., Abeysinghe S., Hoat T. X., Hodgetts J., Dickinson M. 2011. Development of specific *secA*-based diagnostics for the 16SrXI and 16SrXIV phytoplasmas of the Gramineae. *Bulletin of Insectology* 64 Supplement: S15-S16.
22. Bertaccini A., Contaldo N., Benni A., Curini M., Genovese S., Epifano F., Bellardi M.G. 2011. Effects of 'Candidatus Phytoplasma asteris' infection on volatile secondary metabolites of *Grindelia robusta* Nutt. *Journal of Phytopathology* 159: 124-126.
23. Bertaccini A., Duduk B. 2011. Taxonomy of phytoplasmas associated with emerging diseases. *Phytopathogenic Mollicutes* 1(2): 59-63.
24. Bertaccini A., Paltrinieri S., Makarova O., Contaldo N., Nicolaisen M. 2011. Sharing information and collections on phytoplasmas: from QBOL to QBANK. *Bulletin of Insectology* 64 Supplement: S289-S290.
25. Bianco P.A., Bulgari D., Casati P., Quaglino F. 2011. Conventional and novel strategies for the phytoplasma diseases containment. *Phytopathogenic Mollicutes* 1(2): 77-82
26. Bos J.I.B., Hogenhout S.A. 2011. Effector proteins that modulate plant-insect interactions. *Current Opinion in Plant Biology* 14: 1-7.
27. Bouyahia H., Della Bartola M., Rizzo D., Paltrinieri S., Braccini P., Milano C., Bertaccini A., Materazzi A. 2011. Distribution and tuf type characterization of 'bois noir' in Tuscany by an improved real-time assay or nested-PCR. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 59-60.
28. Bulgari D., Casati P., Crepaldi P., Daffonchio D., Quaglino F., Brusetti L., Bianco P.A. 2011. Restructuring of endophytic bacterial communities in grapevine yellows-diseased and recovered *Vitis vinifera* L. plants. *Applied and Environmental microbiology* 77: 5018-5022.
29. Bulgari D., Casati P., Faoro F. 2011. Fluorescence *in situ* hybridization for phytoplasma and endophytic bacteria localization in plant tissues. *Journal of Microbiological Methods* 87: 220-223.
30. Bulgari D., Casati P., Quaglino F., Bianco P.A., Faoro F. 2011. Endophytic bacterial diversity associated with grapevine plants and their potential applications. *Journal of Plant Pathology* 93(4 supplement): S4-S28.
31. Bulgari D., Quaglino F., Bianco P. A., Casati P. 2011. Preliminary results on endophytic bacterial community fluctuation during phytoplasma infection. *Bulletin of Insectology* 64 Supplement: S213-S214.
32. Çağlayan K., Gazel M., Ulubas Serçe C., Bozkurt A., Elçi E. 2011. Phytoplasma diseases of stone fruit trees in Turkey and their containment. *Phytopathogenic Mollicutes* 1(2): 95-97
33. Calari A., Paltrinieri S., Contaldo N., Sakalieva D., Mori N., Duduk B., Bertaccini A. 2011. Molecular evidence of phytoplasmas in winter oilseed rape, tomato and corn seedlings. *Bulletin of Insectology* 64 Supplement: S157-S158.
34. Canik D., Ertunc F., Paltrinieri S., Contaldo N., Bertaccini A. 2011. Identification of different phytoplasmas infecting grapevine in Turkey. *Bulletin of Insectology* 64 Supplement: S225-S226.
35. Canik D., Topkaya S., Bayram S., Soylemezoglu G., Ertunc F. 2011. Occurrence and distribution of Bois noir phytoplasma in Turkey. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 43-44.

36. Carle P., Malembic-Maher S., Arricau-Bouvery N., Desqué D., Eveillard S., Carrère S., Foissac X. 2011. Flavescence dorée phytoplasma genome: a metabolism oriented towards glycolysis and protein degradation. *Bulletin of Insectology* 64 Supplement: S13-S14.
37. Carstens R., Petersen Y., Stephan D., Burger J.T. 2011. Current status of Aster yellows disease in infected vineyards in the Vredendal grape producing area of South Africa. *Phytopathogenic Mollicutes* 1(2): 83-85.
38. Casati P., Quaglino F., Stern A.R., Tedeschi R., Alma A., Bianco P.A. 2011. Multiple gene analyses reveal extensive genetic diversity among 'Candidatus Phytoplasma mali' populations. *Annals of Applied Biology* 158(1): 257-266.
39. Chireceanu C., Ploaie P.G., Gutuie M., Nicolae I., Stan C., Comsa M. 2011. Detection of the *Auchenorrhyncha* fauna associated with grapevine displaying yellows symptoms in Romania. *Acta Phytopathologica et Entomologica Hungarica* 46: 255–262.
40. Chucho J., Sauvion N., Thiéry D. 2011. Electropenetrography, a tool to investigate the feeding behaviour of sucking insects: development of this technic for *Scaphoideus titanus*. *IOBC/wprs Bulletin*, 67: 299-303.
41. Chucho J., Thiéry D., Mazzoni V. 2011. Do *Scaphoideus titanus* (Hemiptera: Cicadellidae) nymphs use vibrational communication? *Naturwissenschaften* 98: 639-642.
42. Ciccotti A. M., Bisognin C., Battocletti I., Deromedi M., Bragagna P., Filippi M. 2011. Response of apple proliferation-resistant *Malus sieboldii* hybrids to multiple infections with latent apple viruses. *Bulletin of Insectology* 64 Supplement: S263-S264.
43. Cieślińska M., Kruczyńska D. 2011. Molecular detection of phytoplasmas infecting apple trees in Poland. *Bulletin of Insectology* 64 Supplement: S73-S74.
44. Contaldo N., Bellardi M.G., Cavicchi L., Epifano F., Genovese S., Curini M., Bertaccini A. 2011. Phytochemical effects of phytoplasma infections on essential oil of *Monarda fistulosa* L. *Bulletin of Insectology* 64 Supplement: S177-S178.
45. Contaldo N., Canel A., Makarova O., Paltrinieri S., Bertaccini A., Nicolaisen M. 2011. Use of a fragment of the tuf gene for phytoplasma 16Sr group/subgroup differentiation. *Bulletin of Insectology* 64 Supplement: S45-S46.
46. Contaldo N., Duduk B., Paltrinieri S., Dal Molin F., Mitrović J., Bertaccini A. 2011. Molecular variability of 16S rDNA of bois noir phytoplasmas in grapevine from Italy and Serbia. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 61-62.
47. Contaldo N., Soufi Z., Bertaccini A. 2011. Preliminary identification of phytoplasmas associated with grapevine yellows in Syria. *Bulletin of Insectology* 64 Supplement: S217-S218.
48. Crotti E., Chouaia B., Rizzi A., Mandrioli M., Sacchi L., Sassera D., Ricci I., Gonella E., Favia G., Alma A., Bandi C., Daffonchio D. 2011. Ecological interactions between acetic acid bacterial symbionts and their insect hosts. In: Casella S., Daffonchio D., Gobbetti M., Parente E. eds., Milano, First international conference on microbial diversity. Environmental stress and adaptation., 26th – 28th October 2011, Milan, Italy.
49. Crotti E., Gonella E., Ricci I., Clementi E., Mandrioli M., Sacchi L., Favia G., Alma A., Bourtzis K., Cherif A., Bandi C., Daffonchio D. 2011. Secondary symbionts of insects: acetic acid bacteria. in E. Zcori-Fein and K. Bourtzis, Manipulative tennants: bacteria associated with arthropods, CRC Press Taylor & Francis Group, Boca Raton, pp. 45- 72.
50. Cvrković T., Jović J., Mitrović M., Krstić O., Krnjajić S., Toševski I. 2011: Potential new Hemipteran vectors of stolbur phytoplasma in Serbian vineyards. *Bulletin of Insectology* 64 Supplement: S129-S130.
51. D'Amelio R., Berta G., Gamalero E., Massa N., Avidano L., Cantamessa S., D'Agostino G., Bosco D., Marzachi C., 2011. Effects of AM fungus and a pseudomonad on phytoplasmosis. *Plant Pathology*, 60: 1014-1022.
52. D'Amelio R., Berta G., Gamalero E., Massa N., Avidano L., Cantamessa S., D'Agostino G., Bosco D., Marzachi C. 2011. Increased plant tolerance against chrysanthemum yellows phytoplasma

- (‘*Candidatus Phytoplasma asteris*’) following double inoculation with *Glomus mosseae* BEG12 and *Pseudomonas putida* S1Pf1Rif. *Plant Pathology* 60(6): 1014–1022.
53. Dakhil H.A., Abou-Fakhr Hammad E., El-Mohtar C, Abou-Jawdah Y. 2011. Survey of leafhopper species in almond orchards infected with almond witches’ broom phytoplasma in Lebanon. *Journal of Insect Science* 11: 60.
  54. Danet J.L., Balakishiyeva G., Cimerman A., Sauvion N., Marie-Jeanne V., Labonne G., Lavina A., Batlle A., Krizanac I., Skoric D., Ermacora P., Ulubas Serce C., Caglayan K., Jarausch W., Foissac X. 2011. Multilocus sequence analysis reveals the genetic diversity of European fruit tree phytoplasmas and the existence of inter species recombination. *Microbiology* 157: 438-450.
  55. De Oliveira E., De Sousa S.M., Landau E.C. 2011. Transmission of maize bushy stunt phytoplasma by *Dalbulus maidis* leafhopper. *Bulletin of Insectology* 64 Supplement: S153-S154.
  56. Del Prete S., De Luca V., Capasso C., Pastore M., Del Vaglio M., Capasso A., Carginale V. 2011. Preliminary proteomic analysis of pear leaves in response to pear decline phytoplasma infection. *Bulletin of Insectology* 64 Supplement: S187-S188.
  57. Delić D., Contaldo N., Paltrinieri S., Bertaccini A. 2011. Molecular characterisation of bois noir phytoplasmas from Bosnia and Herzegovina. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 67-68.
  58. Delić D., Contaldo N., Paltrinieri S., Lolić B., Đurić Z., Hrnčić S., Bertaccini A. 2011. Grapevine yellows in Bosnia and Herzegovina: surveys to identify phytoplasmas in grapevine, weeds and insect vectors. *Bulletin of Insectology* 64 Supplement: 245-246.
  59. Delić D., Lolić B., Karačić A. 2011. Screening for phytoplasma presence in West Herzegovina vineyards. *Phytopathogenic Mollicutes* 1(2): 87-90.
  60. Ding Y., Wu W., Wei W., Davis R.E., Lee I-M., Jomantiene R., Zhao Y. 2011. Effects of exogenous indole-3-acetic acid on proteomic profiles of potato purple top phytoplasma-infected tomato plants. *Bulletin of Insectology* 64 Supplement: S183-S184.
  61. Dollet M., Macome F., Vaz A., Fabre S. 2011. Phytoplasmas identical to coconut lethal yellowing phytoplasmas from Zambesia (Mozambique) found in a pentatomid bug in Cabo Delgado province. *Bulletin of Insectology* 64 Supplement: S139-S140.
  62. Duduk B., Bertaccini A. 2011. Phytoplasma classification: taxonomy based on 16S ribosomal gene, is it enough? *Phytopathogenic Mollicutes* 1(1): 1-13.
  63. Ember I., Acs Z., Salar P., Danet J.-L., Foissac X., Kölber M., Malembic-Maher S. 2011. Survey and genetic diversity of phytoplasmas from the 16SrV-C and -D subgroups in Hungary. *Bulletin of Insectology* 64 Supplement: S33-S34.
  64. Ember I., Talaber C., Acs Z., Nagy Z., Kölber M. 2011. Study of stolbur phytoplasma tuber transmission in potato varieties of high starch content. *Bulletin of Insectology* 64 Supplement: S209-S210.
  65. Ermacora P., Ferrini F., Loi N., Martini M., Osler R. 2011. Population dynamics of *Cacopsylla pruni* and ‘*Candidatus Phytoplasma prunorum*’ infection in North-Eastern Italy. *Bulletin of Insectology* 64 Supplement: S143-S144.
  66. Ermacora P., Loi N., Ferrini F., Martini M., Osler R. 2011. A five-year study on the dynamics of Bois noir spreading in a Chardonnay vineyard in Friuli Venezia Giulia region (N.E. Italy). 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 41-42.
  67. Esmailzadeh-Hosseini S. A., Salehi M., Mirzaie A. 2011. Alternate hosts of alfalfa witches’ broom phytoplasma and winter hosts of its vector *Orosius albicinctus* in Yazd-Iran. *Bulletin of Insectology* 64 Supplement: S247-S248.
  68. Esmailzadeh-Hosseini S.A., Salehi M., Khanchezar A., Shamszadeh M. 2011. The first report of a phytoplasma associated with pot marigold phyllody in Iran. *Bulletin of Insectology* 64 Supplement: S109-S110.
  69. Etropoliska A., Jarausch B., Herdemertens M., Jarausch W. 2011. Development of specific detection primers for ‘*Candidatus Phytoplasma pyri*’. *Bulletin of Insectology* 64 Supplement: S87-S88.

70. Etropolska A., Jarausch B., Trenchev G., Jarausch W. 2011. Survey of psyllid vectors of fruit tree phytoplasmas in Bulgaria: a preliminary report. *Bulletin of Insectology* 64 Supplement: S261-S262.
71. Fabre A., Balakishiyeva G., Danet J.L., Foissac X. 2011. Heterologous expression and genetic diversity of StAMP, the antigenic membrane protein of stolbur phytoplasma. 2<sup>nd</sup> European Bois noir Workshop, Castelbrando, Cison di Valmarino TV, February 27-March 1: 79-80.
72. Fabre A., Balakishiyeva G., Ember I., Omar A., Acs Z., Kolber M., Kauzner L., Della Bartola M., Danet J.-L., Foissac X. 2011. StAMP encoding the antigenic membrane protein of stolbur phytoplasma is useful for molecular epidemiology. *Bulletin of Insectology* 64 Supplement: S21-S22.
73. Fabre A., Balakishiyeva G., Ember I., Omar A., Acs Z., Kolber M., Kauzner L., Della Bartola M., Danet J.-L., Foissac X. 2011. StAMP encoding the antigenic membrane protein of stolbur phytoplasma is useful for molecular epidemiology. *Bulletin of Insectology* 64, S21-S22.
74. Fabre A., Danet J.L., Foissac X. 2011. The stolbur phytoplasma antigenic membrane protein gene STAMP is submitted to diversifying positive selection. *Gene* 472: 37-41.
75. Filippin L., De Prà V., Zottini M., Borgo M., Angelini E. 2011. Nucleotide sequencing of imp gene in phytoplasmas associated to Flavescence dorée from *Ailanthus altissima*. *Bulletin of Insectology* 64 Supplement: S49-S50.
76. Foissac X., Choueiri E., Bové J.M. 2011. Almond witches'-broom phytoplasma. In *Virus and virus-like diseases of pome and stone fruits*, pp. 277-280. Edited by A. Hadidi, M. Barba, T. Candresse and W. Jelkmann. Saint Paul, Minnesota: APS press.
77. Fránová J. 2011: Difficulties with conventional phytoplasma diagnostic using PCR/RFLP analyses. *Bulletin of Insectology* 64 Supplement: S287-S288.
78. Fránová J., Ludvíková H., Paprstein F. 2011. Detection and characterization of phytoplasmas infecting apple trees in the Czech Republic during 2010. *Bulletin of Insectology* 64 Supplement: S51-S52.
79. Galetto L., Bosco D., Balestrini R., Genre A., Fletcher J., Marzachi C. 2011. The major antigenic membrane protein of '*Candidatus* Phytoplasma asteris' selectively interacts with ATP synthase and actin of leafhopper vectors. *PLoS One* 6: e22571.
